

TCMA: PRACTICE SUPPORT PROGRAM

Step 2: PROFESSIONAL DEVELOPMENT PLAN – Learning Objectives

Name: Shelley A

My Quality Assurance (QA) Cycle is from, April 1 2023 to March 31, 2025

My learning goal / objective for this QA cycle is:

Learning Objective :

I would like to learn how to better communicate with other health care practitioners

Descriptions of proposed learning activities to meet this learning objective:

I intend to connect with my association to inquire if there are specific groups or committees that address this issue, and if not, suggest to lead one.

Seek opportunities, like courses and webinars and/or articles to learn more about effective inter and intra-professional collaboration and communication

Relates to CSC indicator(s):

Proposed achievement Date:

(Note: Make multiple copies of this page to fill in for additional learning objectives. Remember by stating your learning needs and interests as SMART goals, you will find it easier to work on them during your QA cycle.)

Learning Objective :

I would like to learn how to better evaluate and source research to integrate into my practice

Descriptions of proposed learning activities to meet this learning objective:

I intend to connect with my colleagues to discuss where they access current areas of TCM/A research. Additionally, I would like to work with my association on this to identify how to better assist the profession to access and utilize this information.

I will seek opportunities to learn about research and how to evaluate it in a meaningful way.
