

Registration Examination Statistics – Results by Entry Pathway

Candidates at CCHPBC's registration examination are either graduates of Recognized Education Programs or eligible by demonstrating substantial equivalence via CCHPBC's Prior Learning Assessment process.

The results published below present annual summaries of candidates' results by their entry pathway, and compare these results to the overall aggregated result of all candidates who completed the examination. Results of repeat candidates – those who failed one or more components of the registration examination – are not included in these statistics.

If you have any questions regarding the results, please email applications@cchpbc.ca.

Results of the 2025 candidate's first attempt at CCHPBC registration examination

*Successful candidates passed each of the Three components of the CCHPBC registration examination.

**Candidates in the Prior Learning Assessment (PLA) stream have demonstrated substantial equivalence to CCHPBC's entry-level requirements. These candidates are generally from outside of British Columbia. The Pla grouping aggregates diverse streams of entry; therefore, the data is anonymous.

***Represents all candidates who completed the registration examination from all streams of entry. To protect the anonymity of individual candidates, streams of entry with two or less participants are not itemized. An arithmetic tally of participants equals 473.
